## QUESTION 1

# Case Study: 1

Mix Questions IN THIS CASE STUDY

### Question No:1

A company plans to implement Dynamics 365 Supply Chain Management. The company has the following requirements:

Use mobile devices for warehouse activities including cycle counting. Set up automatic cycle counting work IDs and assign the IDs to workers.

Ensure that workers can group work IDs that are specific to a particular location, zone, or work pool.

Ensure that workers can specify a cycle counting work ID that has a status of Open.

Ensure that workers can count items in a warehouse location at any time.

You need to recommend cycle counting options that meet the company's requirements.

What should you recommend? To answer, drag the appropriate counting options to the correct requirements. Each counting option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

#### Cycle count options

User directed

System directed

Cycle count grouping

Spot cycle count

#### Answer Area

##### Requirement

Specify a cycle counting work ID that has a status of **Open**.

Automatically assign a cycle counting work ID to a worker.

Group work IDs that are specific to a particular location, zone, or work pool.

Count items in a warehouse location at any time.

##### Cycle count option

**Correct Answer:**

**Cycle count options**

- 
- 
- 
- 

**Answer Area****Requirement**

- Specify a cycle counting work ID that has a status of **Open**.
- Automatically assign a cycle counting work ID to a worker.
- Group work IDs that are specific to a particular location, zone, or work pool.
- Count items in a warehouse location at any time.

**Cycle count option**

**QUESTION 2**

An organization is planning to migrate to Dynamics 365 Finance. The organization reports that the legacy system has failed during peak sessions. You need to recommend an approach that will handle peak session volume. Which two approaches should you recommend? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Use performance and load testing.
- B. Configure a single box development environment.
- C. Perform user integration testing.
- D. Optimize server configuration.

**Correct Answer: A,D**

**QUESTION 3**

Note: This question is part of a series of questions that present the same scenario. Each Question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company with multiple legal entities implements Dynamics 365 Finance.

You need to recommend options to ensure that you can provide customized financial reporting across the legal entities.

Solution: Create separate cost centers to manage operations. Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

#### QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each Question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company with multiple legal entities implements Dynamics 365 Finance.

You need to recommend options to ensure that you can provide customized financial reporting across the legal entities.

Solution: Create separate departments to manage functional areas. Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

#### QUESTION 5

A local art school is considering a new Dynamics 365 Finance cloud implementation.

The school needs to select a system authentication type.

Which two setup options does the implementation require? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point

- A. Use a valid Azure Active Directory (Azure AD) account.
- B. Use a valid Active Directory account
- C. Use OAuth.
- D. Use assigned roles.
- E. Use an enabled Dynamics 365 Finance user.

**Correct Answer: A,C**

#### QUESTION 6

A client has a third-party warehouse management system.

Data from the system must be integrated with Dynamics 365 Finance in near real-time. You need to determine an integration solution.

Which two solutions should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. OData
- B. Batch data API processed daily
- C. Data management
- D. Business events

**Correct Answer: A**

## QUESTION 7

A company is moving financial workloads to Dynamics 365 Finance.

Balance sheet accounts do not require department dimension postings while profit and loss accounts require department dimensions.

You need to determine which functionality achieves the goal.

What should you recommend?

- A. Legal entities
- B. Financial dimensions
- C. Account structures
- D. Financial dimension sets

**Correct Answer: C**

## QUESTION 8

A United States-based company has a cloud-based Dynamics 365 Finance implementation. The company plans to open a new location in Mexico.

Electronic invoicing is mandated in Mexico.

You need to recommend a solution that meets Mexican localization reporting requirements. What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

Requirement	Action
Implement localization	<input type="checkbox"/>
	Create a new cloud-based instance of Dynamics 365 Finance in Mexico.
	Select Mexico for the localized functionality region field.
	Select United States for the localized functionality region field.
Configure company	<input type="checkbox"/>
	Create a new on-premises instance of Dynamics 365 Finance in Mexico.
	Create a new legal entity with MEX as the country code.
	Create a new site in the existing legal entity with an address in Mexico.
Identify gaps	<input type="checkbox"/>
	Create a new warehouse in the existing legal entity with an address in Mexico.
	Copy the current legal entity into a new legal entity and change the site address to Mexico.
	Identify the reporting format requirement and analyze Dynamics 365 for supporting functionality.
Recommend using current reporting methods.	
Recommend using out-of-the-box sales invoice report and send in the required format.	
Identify fields in the localization that are relevant and remove the rest to simplify the report.	

**Correct Answer:**

Requirement	Tool
E-commerce sales orders	<input type="checkbox"/> Dynamics 365 <input type="checkbox"/> Logic app <input type="checkbox"/> Power App
Vendor purchase orders	<input type="checkbox"/> Dynamics 365 <input type="checkbox"/> Third party CPQ <input type="checkbox"/> Third party EDI <input type="checkbox"/> Third party OCR
User2's issue	<input type="checkbox"/> Dynamics 365 <input type="checkbox"/> Third party CPQ <input type="checkbox"/> Third party EDI <input type="checkbox"/> Third party OCR

**QUESTION 9**

A local community college uses Microsoft SharePoint Online to track and manage laptop computers that are issued to faculty and other employees.

Information about all laptops must be visible in Asset Management for Dynamics 365 Supply Chain Management. Users must be able to issue new laptop computers to faculty and other employees directly from the system.

You need to recommend a solution for the college.

Which two actions should you recommend? Each correct answer provides a complete solution.

NOTE: Each correct selection is worth one point.

- A. Implement data management.
- B. Implement human resources.
- C. Embed PowerApps into the Employees form.
- D. Implement fixed assets.

**Correct Answer: B,C**
